

The Day - Year Principle

1 day \equiv 1 year
 2,520 days \equiv 2,520 years

1 day \equiv 1 year
 24 hours \equiv 360 days

so

1 hour \equiv 15 days

but if

1 day \equiv 1 year

this makes

15 days \equiv 15 years

therefore

1 hour \equiv 15 years

Armistice signed at 11am on 11th day of 11th month in 1918

The 'twelfth and final hour' was 15 years from 1918

AD 1918 + 15 years = AD 1933

also

588 BC + 2,520 years = AD 1933

and

AD 33 + 1,900 years = AD 1933
